

Sweet Export

Version 1.0

- Export only those columns which are display into ListView
- Works with the Layout
 Options from "Advanced
 Search"
- ✓ Works with the Saved Searches from "Advanced Search"

Introduction

Default Export from SuiteCRM is included almost all the fields which are exist into module. Sometimes users confused into finding the necessary information from the exported files. User has to put extra effort to find out useful data from the exported result. To overcome this problem we have launched plugin "Sweet Export", which will export the module record in manner which will useful without any extra effort.

Sweet Export is allowed to export records from ListView. Only those fields are exported which are display into ListView. Sweet Export also works with the "Saved Search" and "Layout Options".

It also checks if the user has permission to export the module records or not. Sweet Export ListView action button/link is not display if user is preventing to export the module records via Role Management or Security Groups.

How to get the plugin?

> For SuiteCRM, Buy it from the link below.

Sweet Export - SuiteCRM Store

How to install?

Navigate to Admin > Module Loader and select the zip file, that you would have received upon the purchase. Follow the installation process.

Validate the license

Once add-on is installed successfully, you have to provide valid license. Go to Admin and access "Sweet Export Configuration" link shown as below.

> Provide the license key that you have received upon purchase and validate it.

SWEET EXPORT LICENSE CONFIGURATION: MANAGE AND CONFIGURE THE LICENSE FOR SWEET EXPORT
To Locate Your Key
1. Login to SugarOutfitters
2. Go to Account->Downloads
3. Locate the key for the purchase of this add-on
4. Paste into the License Key box below
5. Hit "Validate"
License Key VALIDATE

- Sweet Export is also check whether logged-in user has adequate permission to export the module records or not. If user is prevented from export the module records through Role Management or Security Groups then "Sweet Export" button will not be display into ListView action menu.
- For Example, we can prevent "Sarah Smith" from export Contacts module record. For that, we will create Role and assign "Sarah Smith" user to it and mark "Export" to none for Contacts module.
