Overview

Impress your sales rep by reminding them important meetings planned for the day, with map!! Set up a scheduler and you are sorted! Sales Rep receives an email with map and meeting details.

How to install?

Download plug-in from
http://www.sugarforge.org/projects/mmr/ from downloads tab.

Install plug-in using Module Loader, Admin > Module Loader.

P.S. Assumed you have installed cron job already.

Create Scheduler

After successful installation, go to Admin > Scheduler > Create Scheduler > Select "Meeting map reminder" as Job and set the interval to be when you want to send email to sales representatives. And that's it!
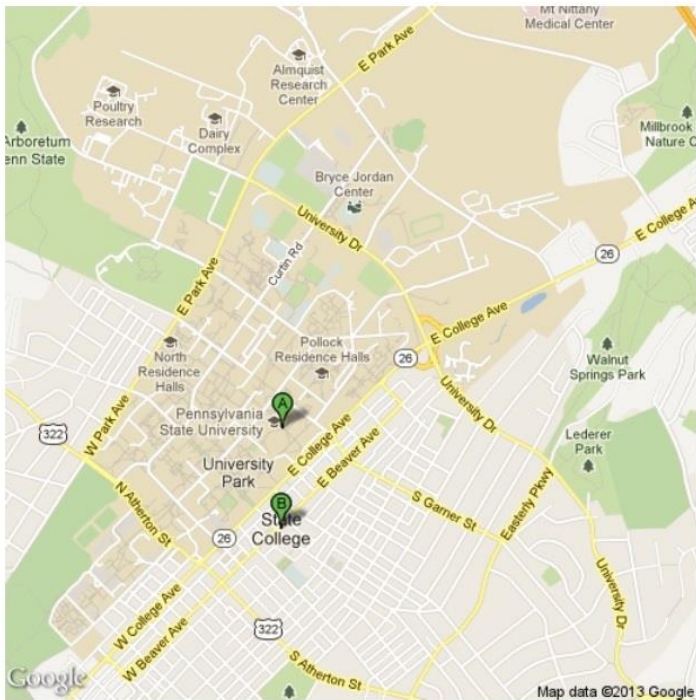

Surprise!

Sales representative will receive an email on specified time which you have set in scheduler with map and meeting details.

to me

Hello Urdhva Tech,

Following is the meeting list for the day.
Have a great day!

Map data ©2013 Google

Letter	Subject	Location	Description
A	Discuss pricing	Pennsylvania State University, State College, PA	Meeting to discuss project plan and hash out the details of implementation
B	Demo at conference hall	courtyard state college, PA	Demo of general flow of SugarCRM.
